Oil Goes Under: What Next?

Arthur Jiantao Yan
OilChem China
yan@alumni.rice.edu

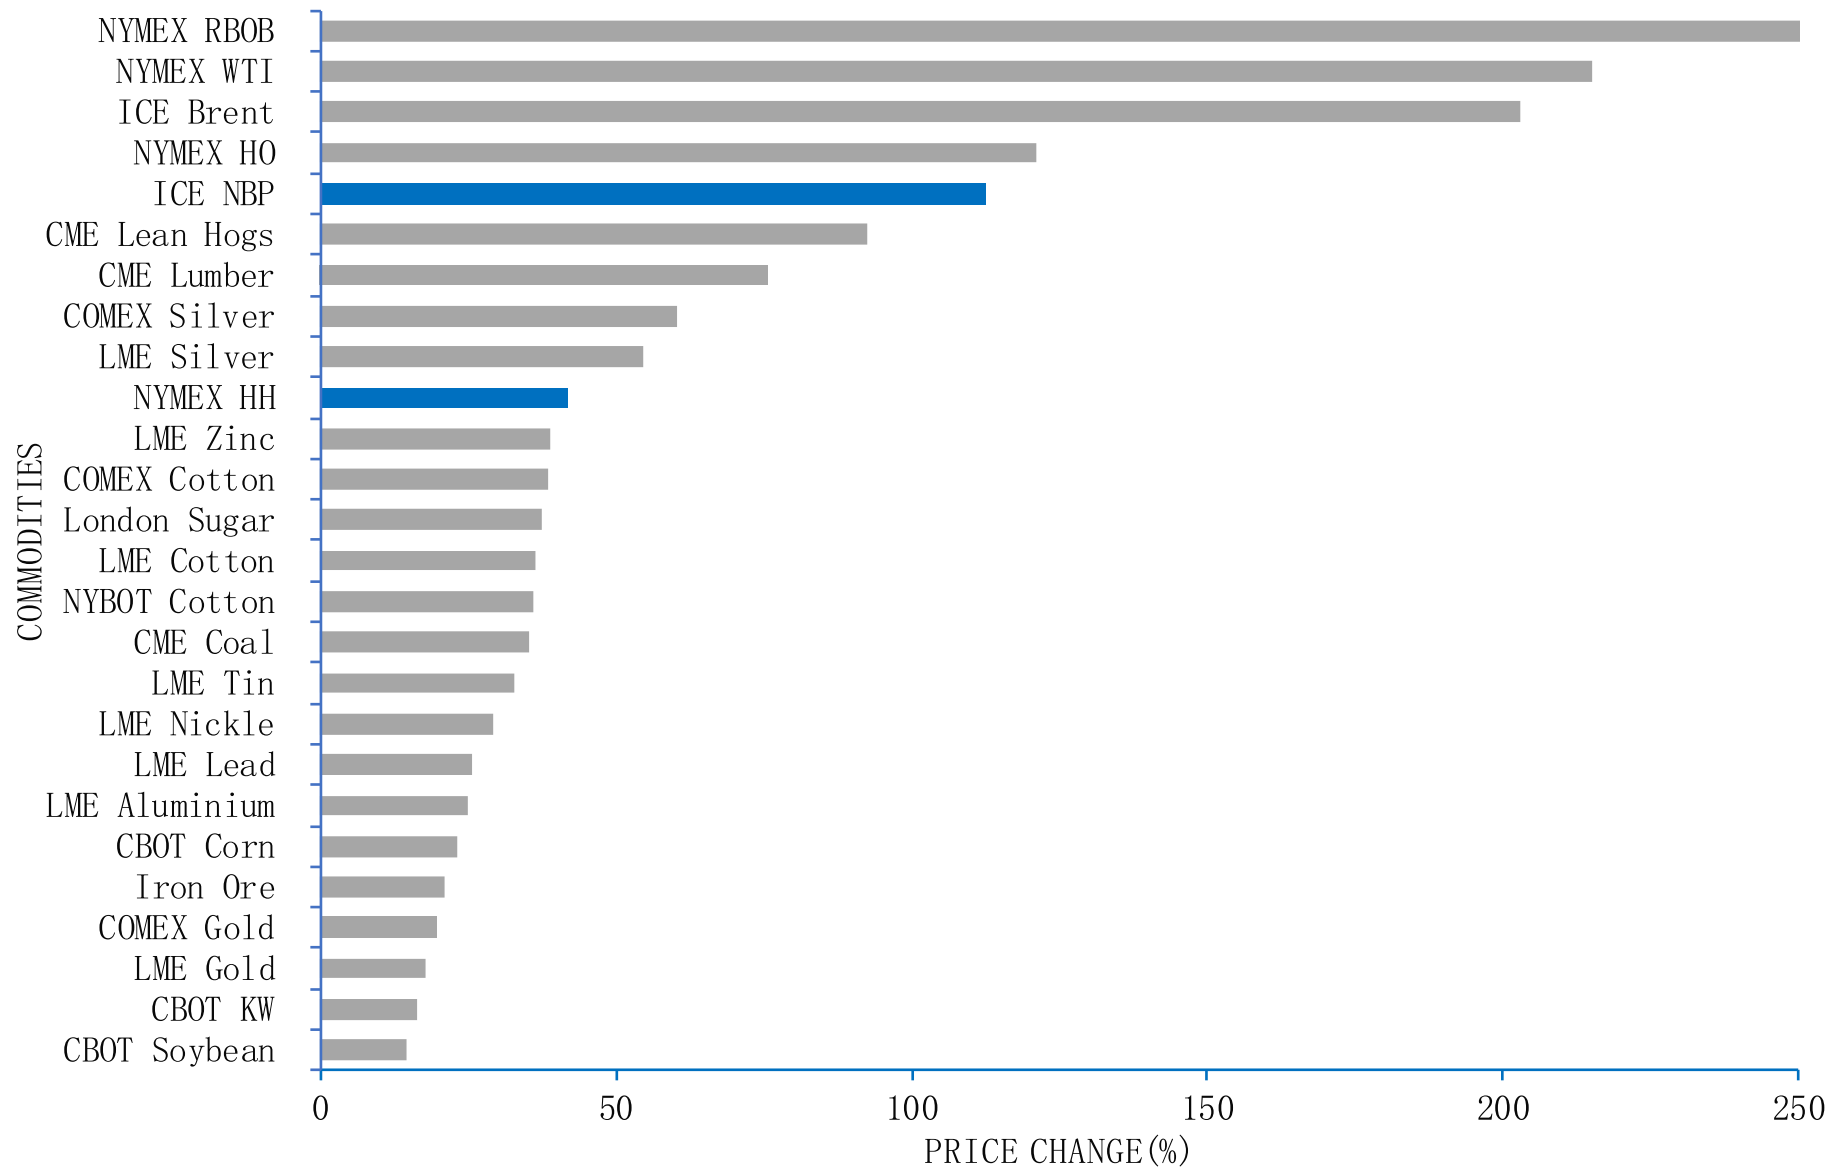

Thursday April 23, 2020

- **Arthur Jiantao Yan is a best-selling award-winning author and energy subject speaker with over 20 years of energy industry experiences.**
- **He is currently Vice President & Chief Strategy Officer of OilChem where he works through the full energy value chain. He was the Head of Policy, Industry & Regulatory Affairs at BP China. Prior to that, he was the primary equity analyst of Goldman Sachs covering oil-related majors, services, and engineering stocks in mainland China and Hong Kong capital markets. He was a top-ranked energy analyst for II All-China Research by global institutional investors.**
- **Previously he was the strategic consultant and business development manager at IHS/CERA, advising the Chinese energy and financial firms investing globally. In the 1990s, he worked for The Wing Group (Enron-backed development firm) in China developing LNG terminal and power generation plants and for an entity of China's Ministry of Commerce.**
- **He was the co-author of the best-selling award-winning book Top Charts for Crude Futures, Top Charts for Natural Gas & LNG, the China chapter of Achieving Energy Security in Asia: Diversification, Integration and Policy Implication, and the Chinese reviewer of Daniel Yergin's book The Quest: Energy, Security, and the Remaking of the Modern World.**
